TERMS OF REFERENCE (TOR)

PROCUREMENT OF THE SERVICES OF A RESEARCH/SURVEY COMPANY TO CONDUCT THE 2020 TPB CUSTOMER SATISFACTION SURVEY

BACKGROUND AND OBJECTIVES:

The Tourism Promotions Board (TPB), an attached agency of the Department of Tourism, is mandated to market and promote the Philippines as a major global tourism destination. TPB envisions the Philippines to become the preferred destination for safe, uniquely diverse, and fun travel by 2025. With this goal, TPB has been organizing promotional programs which include business/sales missions, roadshows, tourism marketing educational seminars, product inventories and major tourism events such as the Philippine Travel Exchange (PHITEX) and Philippine MICE Conference (MICECON). TPB is also participating in overseas and local travel trade fairs and implementing invitational programs/familiarization tours for travel agents, TV/magazine personalities, travel bloggers, social media influencers and key opinion leaders to boost its promotional efforts of the Philippines. The exhibitors, program attendees, familiarization trip participants and social media influencers taking part in these projects/events are hereby treated as the customers of TPB.

In TPB's commitment of improving its services to customers and comply with its performance agreement with the Governance Commission for Government-Owned and Controlled Corporations (GCG), the agency has been commissioning the services of a research/survey company every year since 2015 to conduct a transparent and objective Customer Satisfaction Survey. The survey is designed to assess the TPB customers' overall satisfaction and perception on the services rendered to them by the agency during the implementation of its international and domestic projects/events.

The research/survey company is required to conform to the following guidelines prepared by GCG for the implementation of the 2020 TPB Customer Satisfaction Survey:

- a. Enhanced Standard Guideline on the Conduct of Customer Satisfaction Survey (released on 26 September 2019).
- b. Additional Guidelines in the Conduct of the Customer Satisfaction Survey (CSS) for 2020 in the GOCC Sector (released on 19 August 2020).

DEFINITION OF TPB CUSTOMERS:

Exhibitors- private sector representatives who joined the travel trade fairs or domestic promotion events (e.g. International Boat Show- Dusseldorf, Tourism Expo Japan, Regional Travel Fair) that were either organized or supported by TPB. All of these customers are based in the Philippines.

Attendees- private sector representatives who joined the TPB educational seminars business/sales missions, roadshows, and major tourism events (e.g. Philippine Travel Exchange, Philippine MICE Conference). These customers are a mix of Filipinos and foreigners living within or outside the Philippines

Familiarization Trip Participants and Social Media Influencers- travel agents and media personalities (e.g. TV/magazine writers, celebrities, production crew, travel bloggers, key opinion leaders, and alike) who joined the invitational programs/familiarization trips and tourism destination inventories implemented by TPB. Majority of these customers are foreigners and based abroad.

SURVEY METHODOLOGY:

a. Below are the recommended survey methodologies per customer type:

CUSTOMER TYPE	METHODOLOGY
Exhibitors	Telephone
Attendees	Online Survey Tool/Platform
Familiarization Trip Participants and Social Media Influencers	Online Survey Tool/Platform

b. Conduct of Telephone Interviews:

- The procedures undertaken to corroborate the consistency and accuracy of the telephone interviews must be detailed in the Back-Checking Report, which will be submitted to GCG as part of the Quarterly Monitoring Report.
- Through back-checking, a project team member other than the original interviewer/enumerator shall re-contact the respondent to check the quality and validity of the interviews/outputs.
- It shall be the task of the interviewer/enumerator to fill-out the questionnaires administered through telephone interview. Considering the mode employed, the signature of the respondents shall be dispensed with. The Spot-Checking and Back-Checking Reports must detail that the respondents were correctly identified and their answers were accurately reflected.

c. Conduct of Interviews through Online Survey Tool/Platform

- The use of an online survey tool/platform for data gathering should be accompanied by a report detailing the comprehensive quality control measures employed to ensure the validity and reliability of the data collected. The report will be incorporated in the Quarterly Monitoring Report.

SAMPLE SIZE:

Due to the COVID-19 pandemic, numerous scheduled projects/events of TPB have been cancelled, while others were postponed several times. With the fluid global situation brought by the pandemic, the population of TPB’s customers may change further within the year.

Indicatively, the sample size for 2020 is projected to range from 224 to 300 respondents. The sample size and its distribution per customer type will be finalized during the preparation of the Inception Report. The formula below will be used for the computation:

$$\text{Sample size} = \frac{\frac{z^2 \times p \times (1-p)}{e^2}}{1 + \left(\frac{z^2 \times p \times (1-p)}{e^2 N}\right)}$$

- Where z = 1.96 at 95% confidence level
- N = target universe or population
- e = margin of error at +/-4.3%
- p = sample proportion

SCOPE OF WORK:

- a. Finalization of the sample size per customer type.
- b. Use of the GCG-approved questionnaires composed of a screener test and a main questionnaire. Service specific questions can be added to the questionnaires (under the Execution of Service Section) subject to the approval of TPB.
- c. Follow the 5-point Likert scale for all rating questions.

Very Satisfied	Satisfied	Neither satisfied nor dissatisfied	Dissatisfied	Very Dissatisfied
5	4	3	2	1

- d. Signing of a Non-Disclosure and Confidentiality Agreement by the researchers and all of their partners to ensure confidentiality of the data (e.g. contact details of customers) to be provided to them by TPB.
- e. Recruitment of respondents: contact details will be provided by TPB after signing of the Data-Sharing Agreement.

- f. Adherence to the rules and procedures for data collection, quality control, and data processing as stated in the GCG guidelines.
- g. Analysis of survey results with the minimum required information as follows:
 - i. Data Gathering Methodology (i.e. sampling procedure, total primary customers, sample size used, survey methodology, frequency of data collection).
 - ii. Percentage of satisfied customers using the Top 2 Box (Very Satisfied and Satisfied)
 - iii. Average of the overall satisfaction rating.
 - iv. Crosstabs of the reasons for overall satisfaction rating against type of raters (positive and negative).
 - v. Derived Importance thru Correlation and Modified Kruskal Analysis.
 - vi. Scatter Diagram of derived importance and average performance score.
 - vii. Apostle Model of Customer Loyalty
 - viii. Trending analysis of the results of the TPB Customer Satisfaction Survey in the past five (5) years (as much as feasible) using similar criteria.
- h. Interpretation and analysis of the results based on the following segments:

<ol style="list-style-type: none"> i. By total respondents ii. By areas of coverage iii. By customer type 	<ol style="list-style-type: none"> iv. By rating (positive/negative raters) v. By drivers of satisfaction (derived importance)
