With many people confined to their homes and travel and tourism businesses closed, people have turned to the next best alternative- virtual tourism.

Virtual tourism is essentially a hybrid concept- it combines both the notions of virtual reality and tourism. In essence, virtual tourism facilitates a tourism experience, without actually having to travel anywhere. It takes many different forms and comes in varying degrees of technological capability. In its simplest form, virtual tourism may comprise of a video of a tourism destination. The 'tourist' watches the video, utilizing their hearing and sight senses.
