

Statement of Compliance to the Technical Specifications

**LAND TRANSPORTATION REQUIREMENTS
FOR THE 2-DAY TPB BUSINESS DEVELOPMENT PLANNING SESSION**

Item	Specification	Statement of Compliance (Comply/Not Comply)
1	<p>Compliance with the DOT New Normal Health and Safety Guidelines for Tourist Land Transport Services</p> <p><i>Submit proof of Certificate of Compliance</i></p>	
2	<p>Vehicle must be a 2018 model or newer, air-conditioned and with current registration and insurance.</p>	
3	<p>Four (4) vans max. adhering to Passenger Limit Guidelines set by the DOTr and LTFRB</p>	
4	<p>All vehicles should be well-ventilated, and air conditioning shall be on non-recirculated mode to maximize air changes that reduce potentially infectious particles in the vehicle.</p>	
5	<p>Must have a thermometer gun, basic first-aid kits, and sanitation kits with 70-percent solution alcohol or alcohol-based hand sanitizer and tissue paper or disposable wet wipes, for the free use of passengers, inside all vehicles.</p>	
6	<p>A separate trash bag for all gloves, facemasks, PPE sets, wet wipes and other sanitation disposables used by the passengers shall be available inside the vehicle.</p>	
7	<p>Rates must include the use of vehicles, drivers' services (inclusive of overtime of the drivers), drivers' meals and communication expenses, parking fees, toll fees, vehicle maintenance and consumables such as fuel, oil and lubricants.</p>	
8	<p>Assign a focal person/dispatcher for centralized communication</p>	

9	Drivers must have at least three years of experience as professional driver, be familiar with the major and minor routes in the areas within NCR and its environs.	
10	Assigned drivers to the vehicles must undergo swab test and meet the criteria of having negative results at least 2 days prior to the event.	
11	Drivers must observe personal hygiene and proper grooming. They must be in uniform and should wear personal protective equipment (PPE), complete with face masks and gloves, provided by their operator.	
12	Deep cleaning and proper disinfection and sanitation of vehicles before and after every use, especially the frequently touched surfaces such as seats, armrests, door handles, light, and air controls.	
13	Provision of proper, approved and clean signage for the vehicles assigned for TPB.
