

New

Battery Grip BG-R10

Battery Grip BG-R10 accommodates up to two LP-E6NH/LP-E6N/LP-E6 battery packs to achieve a longer shooting time, so that a fast-depleting battery won't prevent you from getting your dream shots. Also designed for easier vertical orientation shooting.

- Dust and drip resistance design
- Supports in-camera battery recharging/direct power (via USB Adapter PD-E1)
- Compatible with EOS R5 and EOS R6

New

Battery Pack LP-E6NH

The same size as the LP-E6N (1865 mAh) that is used in many existing cameras, the LP-E6NH comes with a bigger battery capacity of 2130 mAh for more shooting power. Supports in-camera USB charging on direct-charging-compatible cameras via USB Power Adapter PD-E1 (sold separately).

- Chargers: LC-E6/ LC-E6E
- Car battery charger: CBC-E6
- 2130 mAh

New

EOS R6 (Body)

Born to Rule

Conquer the darkness with the EOS R6. This full-frame mirrorless camera based on the revolutionary RF mount comes with powerful In-Body Image Stabilization up to 8 stops, ISO range up to 102400 and low luminance AF sensitivity of up to EV -6.5 – all designed to give you optimum performance for low-light photography.

- Approx. 20.1MP full-frame CMOS sensor + 4K video
- Up to 8-stop In-Body Image Stabilizer X Optical Image Stabilizer
- Low-light performance up to EV -6.5 + ISO 102400
- Up to 20 FPS + Animal Detection AF

New

Mount Adapter EF-EOS R

Compact and Lightweight

Features a compact, lightweight and highly portable design. Attaching this adapter to an RF mount camera body enables the use of any lens in Canon's rich EF & EF-S lens* line-up, thereby expanding the possibilities of the EOS R System.

*Except EF-M and Cinema EOS lenses

- Enables EF / EF-S lenses to be mounted onto EOS R cameras
